# PERMANENT MAKEUP CLIENT CONSENT FORM

I hereby consent to and authorize ________________________________ to perform the following procedure: ______________________________________.

Although every precaution will be taken to ensure your safety and wellbeing before, during and after your microblading, please be aware of the following information and possible risks.

Please initial each statement:

______ I am over the age of 18 and in sound mind, body, and health.

______ I understand that I will have permanent and/or semi-permanent cosmetic (referred to on this form as PMU/SPMU) makeup applied using the highest standards of hygiene and that sterile disposable needles and pigment containers are used for each individual client, procedure, and visit.

______ I understand and accept that permanent makeup is a process, often requiring multiple treatment visits to achieve desirable results and 100% success cannot be guaranteed.

______ I have been advised that the pigment result may vary according to skin tones, skin type, ethnicity, age, lifestyle, post-procedure care and general skin conditions. And I understand no guarantee on exact color results can be given.

______ I am aware that the true healed color will be visible 6-8 weeks after each procedure.

______ I accept the responsibility for determining and agreeing to the color, shape, and position of the PMU/SPMU procedure as agreed upon during the consultation.

______ I fully understand and accept that non-toxic pigments are used during the procedure and that the results will fade over time, however, some trace pigment may stay in the skin indefinitely.

______ I have been advised that annual touch-ups are encouraged to maintain the integrity of the color.

______ If an unforeseen condition arises in the course of the PMU/SPMU procedure, I authorize the technician to use his/her professional judgment in deciding what she feels is necessary under the given circumstances.

______ I can confirm that I have received before and aftercare instructions and I will strictly adhere to such instructions. I understand that my failure to do so may jeopardize my chances for a successful procedure.

_______ If I wear contacts, I am aware that I must remove them prior to an eyeliner procedure.

_______ I am aware that I must remove any false eyelashes prior to an Eyeliner/Lash Enhancement procedure. I am also aware that any lash enhancement serums or conditioners can affect the outcome of my Eyeliner/Lash Enhancement procedure.

_______ I acknowledge that my skin is vulnerable to infection directly after a PMU/SPMU application, and I am to contact my primary physician if I see any signs of infection.

_______ I understand that using cosmetics, excessive perspiration, and sun exposure should be limited until the skin has fully healed.

_______ Allergic reactions are always a possibility. I understand that a patch test/allergy test does not guarantee that I will not have an allergic reaction and I release the technician from liability should I develop an allergic reaction to any of the topical preparations, pigments, dyes or the anesthesia used in the procedure.

_______ I understand it's impossible to list every potential risk and complication. I agree to have been informed of possible benefits, risks, and complications including but not limited to: redness or other discoloration, temporary bleeding, bruising, swelling, irritation, pain, fading or loss of pigment, and cold sores on lips.

_______ I am aware that if I am to have an MRI after the procedure, I must tell the radiologist that I have iron oxide permanent cosmetics.

_______ I understand that laser hair removal procedures may turn lip pigment dark or black.

_______ I understand the positioning of my PMU/SPMU procedure can be affected if I elect to have cosmetic surgery, Botox, Restylane or other cosmetic or surgical procedures.

_______ I understand that correcting or touching up micropigmentation that was performed by others involves additional risks because of the existence of permanent pigments of unknown composition, brand, color, age, shape and other factors that my technician has no control over. I understand that additional appointments after the initial and follow up appointments may be required.

_______ I acknowledge that the procedure may result in a long lasting (many years) change to my appearance and that no representation has been made to me as to the ability to later change the results. I am aware that it can be costly to remove.

# AFTER-CARE INSTRUCTIONS

- Expect the color to be harsh and appear darker and thicker due to swelling.
- After the procedure, cleansing should be done with a clean cotton pad in a padding motion for the first 4 hours. This is to absorb excess lymph fluid. Removing this fluid prevents hardening of any blood/lymphatic fluids. Don't apply ointment.
- You can use ice packs for the first 48 hours for 10 minutes.

### Days 1-3

- Expect swelling due to gravity.
- Change your pillowcase and avoid germs and pets around the area for 3 days.
- Don't get the area wet, only clean it from lymph with a damp cotton pad from time to time.

### Days 4-10

- Clean the area with lukewarm water morning and night and air dry.
- Start ointment on the 3rd or 4th day. Apply a thin layer of ointment 2x daily for 3 to 4 days.

## EYELINER STAGES

**DAY 1**  Looks too dark, red, irritated & swollen

**DAY 2** Area feels dry and tender

**DAY 3-4** Scabbing, then flaking

**DAY 5-10** Flaking ends, pigments look too light
